Dear Parent or Guardian,

New York City has updated the school immunization requirements for the 2023-2024 school year. A list of the vaccine requirements for 2023-2024 is included with this letter. Vaccines protect children from getting and spreading diseases; they are required to attend school.

Before the school year begins, you must submit proof of immunization or blood test results that show immunity (see below) for your child if they are attending childcare or school. **All students in childcare through grade 12** must meet the requirements for:

- The DTaP (diphtheria-tetanus-pertussis), poliovirus, MMR (measles-mumps-rubella), varicella and hepatitis B vaccines.

Children under age 5 who are enrolled in childcare and pre-kindergarten (pre-K) must also meet the requirements for:

- The Hib (*Haemophilus influenza* type b) and PCV (pneumococcal conjugate) vaccines.
- The influenza (flu) vaccine: children must receive the flu vaccine by December 31, 2023 (preferably, when it becomes available in early fall).

Children in grades 6 through 12 must also meet the requirements for:

- The Tdap (tetanus-diphtheria-pertussis) booster and MenACWY (meningococcal conjugate) vaccines.

Blood tests that show immunity to measles, mumps, rubella, varicella, or hepatitis B also meet the requirements (polio labs only if done before September 2019).

Please take the time this summer to review your child's immunization history with your child's healthcare provider. Their provider can tell you whether additional doses of one or more vaccines are required for your child to attend childcare or school this year.

Please note: If your child received doses of vaccine BEFORE the minimum age (too early), those doses do NOT count toward the number of doses needed.

If you have questions about these 2023-2024 requirements, please contact your childcare center or school's administrative office.

Sincerely,

Cheryl Lawrence, MD, FAAP

Is Your Child Ready for Child Care or School?

2023-2024 School Year

Learn about required vaccinations in New York City.

All students ages 2 months up to 18 years in New York City must get the following vaccinations to go to childcare or school. Review your child's vaccine needs based on their grade level this school year. The number of vaccine doses your child needs may vary based on age and previous vaccine doses received. Your child may need additional vaccines or vaccine doses if they have certain health conditions or if previous doses were given too early. Blood tests that show immunity to measles, mumps, rubella, varicella, or hepatitis B also meet the requirements (polio immunity is only acceptable if the lab test was done before September 2019).

VACCINATIONS	CHILD CARE, HEAD START, NURSERY, 3K OR PRE- KINDERGARTEN	KINDERGARTEN - Grade 5	GRADES 6 -11	GRADE12
Diphtheria , tetanus, and pertussis (DTaP)	4 doses	5 doses or 4 doses ONLY if the fourth dose was received at age 4 years or older or 3 doses ONLY if the child is age 7 years or older and the series was started at age 1 year or older	3 doses	
Tetanus, diphtheria and pertussis booster (Tdap)			1 dose is required at 11 years or older when entering grades 6 - 12 (in compliance until age 11 years)	
Polio (IPV or OPV)	3 doses	4 doses or 3 doses if the third dose was received at age 4 years or older		
Measles, mumps and rubella (MMR)	1 dose	2 doses		
Hepatitis B	3 doses	3 doses	3 doses or 2 doses of adult hepatitis B vaccine (Recombivax HB®) if the doses at least 4 months apart between ages of 11 through 15 years	
Varicella (chickenpox)	1 dose	2 doses		
Meningococcal conjugate (MenACWY)			Grade 6: Not applicable Grades 7-11: 1 dose	Grade 12: 2 doses or 1 dose if the first dose was received at age 16 years or older
Haemophilus influenzae type b conjugate (Hib)	1 to 4 doses Depends on child's age and doses previously received			
Pneumococcal conjugate (PCV)	1 to 4 doses Depends on child's age and doses previously received			
Influenza	1 dose			

Talk to your health care provider if you have questions.
